TinkerTool

- Finder options:
- Show hidden and system files
 - Disable sound effects
 - Disable Desktop features
 - Add "Quit" item to Finder menu
 - Show selected path in window title

- Animation effects:
- Show animation effect when opening files
 - Animate opening info panels and Desktop icons
 - Animate selecting info panel categories

- Network access: Don't create hidden .DS_Store files over a network connection
- Note: Affected network folders will no longer store comments, labels, icon positions or similar Finder attributes.

- Quick Look: Use transparent covers when inspecting folders

Restricted Finder: Remove the following menu items or disable the following features, respectively:

- | | |
|--|---------------------------------------|
| <input type="checkbox"/> Connect to server | <input type="checkbox"/> Go to folder |
| <input type="checkbox"/> Go to iDisk | <input type="checkbox"/> Restart |
| <input type="checkbox"/> Eject | <input type="checkbox"/> Shutdown |
| <input type="checkbox"/> Burn disc | |

Relaunch Finder

Changes take effect after relaunching the Finder.

- Dock Options:
- Use transparent icons for hidden applications
 - Disable three-dimensional glass effect
 - Use spring-loaded tiles
 - Disable Dock Exposé (display context menu for click-and-hold)

- Restricted Dock:
- Don't allow to change size manually
 - Don't allow to modify content

- Stacks:
- Highlight selection when using grid view
 - Add stack for recent items
 - Use large, grid-like style for list view

Placement:

Minimizer Effect:

Changes take effect after relaunching the Dock.

- Place scroll arrows:
- At both ends
 - Together at start position
 - Together at end position
 - Together at both ends

Small scroll bars may not work correctly if there is not enough space to display all four arrow buttons.

Screenshot file format:

(⌘⌥3 / ⌘⌥4)

Include shadow when capturing window (⌘⌥4)

Target folder for screenshots:

- Sheets:
- Accelerate animation when rolling out sheets
 - Prefer expanded Save dialogs when using new applications
 - Prefer expanded Print dialogs when using new applications

Application Features: Number of entries in Recent Items menus:

Delay for text dragging in Cocoa applications:

Delay before displaying help tags:

- Dashboard: Deactivate Dashboard
- Enable Dashboard developer mode

Developer mode allows you to drag widgets from Dashboard to the Desktop, testing and using them like a normal application. Drag the widget while you are closing Dashboard.

Spotlight: Don't include dictionary entries in search results
 Disable calculator feature

Mail: Don't display contents of attachments inline
 Include names when copying e-mail addresses to pasteboard

Spaces: Don't wrap around when switching from last or first space
 Exposé feature "Application windows" should show windows from all spaces

iTunes 9: Allow ratings with half stars
 Show playlist for the whole library
 Load excerpts completely before playing when browsing iTunes Store (slow Internet line)
 Show links to the iTunes Store
 Invert meaning of alt key (⌘) when clicking links (link to local library)

Importing:

Play songs while importing or converting
 Create file names with track number

Time Machine: Don't ask for backup disks when connecting new drives

Group accounts: Show all user groups in Accounts pane of System Preferences

Downloads: Don't show quarantine warnings for downloaded files

Screen sharing: When using remote access, send system-related shortcut keys (like ⌘⌥Q) to:

Remote computer
 Current computer

Changes take effect the next time you log in.

Changes take effect the next time you log in.

These items will open automatically when you log in:

Hide	Item	Kind	Deactivate	Show
<input type="checkbox"/>	GrowlHelperApp	Application	<input type="checkbox"/>	
<input type="checkbox"/>	AirPort Base Station	Application	<input type="checkbox"/>	
<input type="checkbox"/>	MouseLocatorAgent	Application	<input type="checkbox"/>	
<input type="checkbox"/>	Overflow	Application	<input type="checkbox"/>	
<input type="checkbox"/>	Snapz Pro X	Application	<input type="checkbox"/>	
<input type="checkbox"/>	Caffeine	Application	<input type="checkbox"/>	
<input type="checkbox"/>	LaunchBar	Application	<input type="checkbox"/>	
<input type="checkbox"/>	MemoryStick	Application	<input type="checkbox"/>	
<input checked="" type="checkbox"/>	SoundSource	Application	<input type="checkbox"/>	

To hide an application when you log in, click its Hide checkbox.

To change the startup order, rearrange the items.

To temporarily disable an item keeping it in the list, click its Deactivate checkbox.

Changes take effect the next time you log in.

- Appearance:
- Don't display controls when mouse cursor re-enters window
 - Keep controls always visible
 - Don't use rounded window corners
 - Don't display title bar

- On launch:
- Automatically play movies when opened
 - Show close captioning and subtitles

- Other features:
- Maintain full-screen mode when switching to other applications
 - Allow multiple concurrent recordings
 - When trimming movies, use ⌘ to switch between video and audio tracks
 - When trimming movies, use ⌘ to highlight silent ranges in the audio track

Changes take effect after the next launch of QuickTime Player.

About TidBITS

Previous: TidBITS 1025

TidBITS#1026/03-May-2010

We've got a lot of explaining to do this week, and Glenn Fleishman is primarily responsible. First he looks deeply at the 3G iPad's service plans from AT&T, and after that, he examines the whole Apple/Adobe tiff over Flash, explaining just what the fuss is all about. And if that weren't enough, he shares a simple solution to your iPad's screen going dark outside. Not to be left out, Adam weighs in to announce the new TidBITS Facebook page and our latest ebook, the essential "Take Control of Permissions in Snow Leopard." Adam also looks at BBEdit 9.5 and interviews the winner of our 20th anniversary drawing. Notable software releases this week include Fetch 5.6, Typelt4Me 5.0, iStat Menus 3.0.1, Transmit 4.0, iTunes 9.1.1, PDFpen 4.6.2 and PDFpenPro 4.6.2, and Digital Camera Raw Compatibility Update 3.2.

TidBITS Now on Facebook Thanks to dlvr.it

by Adam C. Engst

Hide full article

After significant effort, we're pleased to announce the opening of the TidBITS Facebook page. It's nothing fancy, largely because there isn't much fancy that can be done on Facebook. Nonetheless, if you click the Like button at the top of the page, you'll see our headlines and article summaries interspersed with the rest of your news feed items. Click a headline link and you'll pop over to the full article on our site. It's simple, yet effective, and if you enjoy using Facebook to keep up on what's happening, I

TidBITS #1026

We've got a lot of explaining to do this week, and Glenn Fleishman is primarily responsible. First he looks deeply at the 3G iPad's service plans from AT&T, and after that, he examines the whole Apple/Adobe tiff over Flash, explaining just what the fuss is all about. And if that weren't enough, he shares a simple solution to your iPad's screen going dark outside. Not to be left out, Adam weighs in to announce the new TidBITS Facebook page and our latest ebook, the essential "Take Control of Permissions in Snow Leopard." Adam also looks at BBEdit 9.5 and interviews the winner of our 20th anniversary drawing. Notable software releases this week include Fetch 5.6, TypeIt4Me 5.0, iStat Menus 3.0.1, Transmit 4.0, iTunes 9.1.1, PDFpen 4.6.2 and PDFpenPro 4.6.2, and Digital Camera Raw Compatibility Update 3.2.

TidBITS Now on Facebook Thanks to dlvr.it

by Adam C. Engst

Hide full article

After significant effort, we're pleased to announce the opening of the TidBITS Facebook page. It's nothing fancy, largely because there isn't much fancy that can be done on Facebook. Nonetheless, if you click the Like button at the top of the page, you'll see our headlines and article summaries interspersed with the rest of your news feed items. Click a headline link and you'll pop over to the full article on our site. It's simple, yet effective, and if you enjoy using Facebook to keep up on what's happening, I

Pandora Radio ❄️

The screenshot shows the Pandora mobile app interface. At the top, there's a search bar with a plus sign and the text '+ Artist, Song or Composer'. Below that are playback controls (back, play/pause, forward) and a progress bar showing 0:08 out of -4:15. The Pandora logo is in the top right. A 'Stations' list on the left includes QuickMix, Fastball Radio, Heavy Rock..., LA Folk Radio, Jangly Guitars, Dave Brubeck... (highlighted), Joni Mitchell..., Pink Floyd Radio, and Elvis Costello... Below the list is a 'Now Playing:' section with a thumbnail for 'dave brubeck' and the text 'Dave Brubeck Radio'. At the bottom left, there are settings and sorting options: 'By Date' and 'ABC'. The main content area on the right features a large album cover for 'One Alone' by Dave Brubeck. Below the cover, the text reads 'Dave Brubeck', 'I'll Never Smile Again', 'One Alone', and a 'Menu' button. Underneath is a section titled 'About Dave Brubeck' with a paragraph of text. At the very bottom, a small line of text reads 'The octet was too radical to get much work...'.

About Dave Brubeck

Dave Brubeck has long served as proof that creative jazz and popular success can go together. Although critics who had championed him when he was unknown seemed to scorn him when the Dave Brubeck Quartet became a surprise success, in reality Brubeck never watered down or altered his music in order to gain a wide audience. Creative booking (being one of the first groups to play regularly on college campuses) and a bit of luck resulted in great popularity, and Dave Brubeck remains one of the few household names in jazz.

From nearly the start, Brubeck enjoyed utilizing poly-rhythms and poly-tonality (playing in two keys at once). He had classical training from his mother, but fooled her for a long period by memorizing his lessons and not learning to read music. He studied music at the College of the Pacific during 1938-1942. Brubeck led a service band in General Patton's Army during World War II and then, in 1946, he started studying at Mills College with the classical composer Darius Milhaud, who encouraged his students to play jazz. During 1946-1949, Brubeck led a group mostly consisting of fellow classmates, and they recorded as the Dave Brubeck Octet; their music (released on Fantasy in 1951) still sounds advanced today, with complex time signatures and some poly-tonality. The octet was too radical to get much work...

The screenshot shows an iPhone interface for the movie 'How to Train Your Dragon 3D'. At the top, the status bar displays 'AT&T', signal strength, Wi-Fi, and the time '12:41 PM'. The battery level is at 100%. Below the status bar is a navigation bar with a 'Movies' button on the left and a star icon on the right. The main content area features a movie poster on the left and a synopsis on the right. The poster shows a Viking helmet with a dragon's head and the text 'HOW TO TRAIN YOUR DRAGON 3D COMING SOON'. The synopsis reads: 'Set in the mythical world of burly Vikings and wild dragons, and based on the book by Cressida Cowell, this action comedy tells the story of Hiccup, a Viking teenager who doesn't exactly fit in with his tribe's longstanding tradition of heroic dragon slayers. Hiccup's world is turned upside down when he encounters a dragon that challenges him and his fellow Vikings to see the world from an entirely different point of view.' Below the synopsis, the rating 'Rated PG. 1 hour 38 minutes' is shown. There are five buttons: 'Read reviews', 'E-mail listings', 'Change date', 'Websites', and 'Play Trailer'. At the bottom, there is a 'Today' section with a 'Map Theaters' button. The bottom dock contains icons for 'Movies', 'Theaters', 'Upcoming', 'DVD', and 'Netflix'.

The screenshot shows an iPhone interface for a movie review app. At the top, the status bar displays 'AT&T', signal strength, Wi-Fi, and the time '12:41 PM' with a 100% battery icon. Below the status bar, a navigation bar contains a back button labeled 'How to Train Your Dragon 3D' and a title 'Reviews'. The main content area lists six reviews, each with a rating in a green box, the reviewer's name, their publication, and a short review snippet. Each review has a blue arrow icon to its right. At the bottom, a dark navigation bar features five icons: 'Movies' (film strip), 'Theaters' (people), 'Upcoming' (clapperboard), 'DVD' (disc), and 'Netflix' (Netflix logo).

How to Train Your Dragon 3D

Reviews

91 Owen Gleiberman
Entertainment Weekly
Rouses you in conventional ways, but it's also the rare animated film that uses 3-D for its breathtaking spatial and emotional possibilities.

91 Steve Persall
St. Petersburg Times
There's much more to the adventure, a deft balance of fantasy and teen angst that never loses its contemporary sense of humor.

90 Pete Hammond
Boxoffice Magazine
An exciting, fun and sensationally entertaining movie for everyone.

88 James Berardinelli
ReelViews
Can be best categorized as a fantasy adventure. Unlike many animated movies, it's not a musical, nor is it overstuffed with age-appropriate comedy.

88 Michael Phillips
Chicago Tribune
Seeing "Dragon" in 3-D really is a must. Its formidable realm of Vikings and dragons and nerds (oh my!) should be enjoyed to the fullest extent theaters allow.

88 Claudia Puig
USA Today
Who would have thought a fire-breathing monster could be one of the most adorable on-screen critters since Babe?
